

JACKSON STEIN

Senior Product Designer

Portfolio: jacksonstein.co • LinkedIn • jsstein1995@gmail.com • New York, NY

SUMMARY

Senior Product Designer with 6+ years of experience leading complex B2B and consumer products from concept to launch. Specialized in product strategy, systems thinking, user research, interaction design, and cross-functional leadership. Track record of delivering measurable business impact across solar software, fintech, mobile, and AI-powered products.

EXPERIENCE

Aurora Solar — Senior Product Designer (Promoted from Product Designer) | Apr 2022–Present

- Led redesign of Sales Mode, Aurora's second-largest product, partnering across three engineering pods to re-architect a core workflow that later contributed to 400%+ growth in project volume.
- Defined product strategy and user experience for Drone Mapping, a 0→1 initiative that transformed drone imagery into usable solar design data and helped validate a new product SKU opportunity.
- Directed customer interviews, beta programs, workflow analysis, and success metrics that informed V2 investment and roadmap decisions.
- Led end-to-end product design across research, interaction design, prototyping, and delivery for complex solar design workflows.
- Influenced executive decision-making through research synthesis, strategic framing, prototyping, and stakeholder alignment.

NerdWallet — Product Design Consultant (Contract) | Mar 2023–May 2024

- Redesigned retirement planning experiences and calculators, increasing customer satisfaction from approximately 60% to 90%.
- Improved onboarding flows through experimentation, UX optimization, and data-informed design decisions.
- Collaborated closely with product managers, researchers, and engineers to balance user needs and business goals.

Laurel Road (KeyBank) — Product Designer | Feb 2021–Apr 2022

- Led redesign of the student loan refinance platform, contributing to \$819M in refinanced loans and surpassing business KPIs.
- Improved checking account onboarding experiences, helping generate 1,244 new accounts within a single quarter.
- Conducted user research and experimentation that translated customer insights into measurable product improvements.

Train Fitness — Founding Product Designer (Contract) | Sep 2020–Feb 2021

- Led end-to-end product design for an AI-powered iOS and Apple Watch fitness platform, designing mobile, watchOS, onboarding, workout tracking, and brand experiences.
- Partnered directly with founders to translate emerging machine-learning capabilities into intuitive consumer experiences.
- Established the initial design system, interaction patterns, and product foundation used through launch.
- Contributed to a product that surpassed 40k downloads, 8k active users, 100k workouts logged, a 4.8 App Store rating, and \$3.5M in funding.

SKILLS

Product Strategy • Product Design • UX Design • Interaction Design • Mobile Design • User Research • Information Architecture • Design Systems • Prototyping • Visual Design • Fintech • B2B SaaS • Figma • Cross-Functional Leadership
